**NEWS RELEASE – JUNE 11, 2009**  
**GENERAL PLAN WORKSHOP WITH CITY COUNCIL SET FOR JUNE 15**

A special workshop will be held with the Twentynine Palms City Council on Monday, June 15, to discuss and present an introduction to the infrastructure issues that will be addressed during the city's General Plan Update.

The workshop will be a forum for discussion and feedback from the City Council, City staff, and the community regarding the city's infrastructure as it relates to future growth and development and the General Plan.

Included will be a discussion of circulation systems, drainage, wastewater and sewage disposal, and other infrastructure issues for the city. According to Community Development Director Charles LaClaire, "These issues are integral to the creation of the preferred Land Use Plan, which is the precursor to the land use element of the city's General Plan and upon which the Environmental Impact Review and all the other General Plan elements are based."

Consultant Nelson Miller of Hogle-Ireland, Inc., the planning firm contracted in January to perform a comprehensive update of the city's General Plan, will facilitate the meeting and lead the presentation to the Council.

The workshop is open to the public and will begin at 5 p.m., Monday, June 15, at City Hall, 6136 Adobe Road. For information, call the City at (760)367-6799.
