## **NEWS RELEASE – NOVEMBER 17, 2009**

### **GENERAL PLAN ADVISORY COMMITTEE TO MEET NOV. 23**

The next regular meeting of the General Plan Advisory Committee (GPAC) is scheduled for Monday, Nov. 23, to continue work on the General Plan Update for the City of Twentynine Palms. The meeting will take place at City Hall, 6136 Adobe Road, beginning at 6 p.m.

During the meeting, GPAC members will continue working through a list of issues and related questions provided by the General Plan Update consultant to assist the advisory committee in considering options for the Draft General Plan Alternatives for land use, circulation, and infrastructure.

Discussion topics will be aimed at determining a preferred Land Use Plan for the City, including lower intensity land-use issues such as Joshua Tree National Park and Marine Corps Base buffers, the Mesquite Dunes area, flood plains and drainage, fault hazards, sewage disposal, and wildlife corridors. Higher intensity land-use issues and alternatives will focus on potential industrial areas in the city, increased residential density, additional commercial areas, and off-highway vehicle parks.

The GPAC meeting is open to the public. Agendas and background materials are available on the General Plan Update website at [www.29palmsgeneralplan.com](http://www.29palmsgeneralplan.com), or contact the Community Development Department at City Hall, (760)367-6799.
